

Start small, Make a difference, Ride transit

Each gallon of gas saved prevents 20 pounds of CO₂ from being released into the air. If 1,000 commuters (like you) save even 5 gallons per week, 600 tons of CO₂ would be eliminated from our air*.

Other great benefits of transit

- Bypass Bay Area traffic on dedicated rail systems. Commuter buses can even travel in carpool lanes!
- Why pay for tolls? On transit, all you pay is the fare.
- Save money by filling up less often at the gas pump and reducing the wear and tear of your vehicle. AAA estimates that your 2009 driving costs may be as high as \$89.70 for every 100 miles driven.
- Read, work, or sleep while riding transit.

What will I get?

Besides feeling good about helping the environment, eligible participants will receive free transit tickets (about a week's worth or more of rides.) BART tickets start at \$60. Train tickets are even higher!
