

Park & Ride lots are helpful for commuters using an alternative mode of transportation. The lots can be used as a central location to meet carpool partners or vanpool drivers. Public transit operators also serve these locations to help commuters get to and from work or school.

Many of the lots have bike lockers available for individuals who cycle to the Park & Ride lots. Please check the lot for details.

There are more than 150 Park & Ride locations throughout the Bay Area. For a complete listing visit http://rideshare.511.org/park_lots.
