**? What is Clipper®?**

Clipper® is a reloadable, universal transit card for the Bay Area that can hold multiple passes/tickets and ride books specific to the transit agency being used while applying all applicable fares, discounts, and transfer rules. Select transit agencies have discontinued paper passes/tickets and require Clipper in order to receive the discounted fare. Cash value can be loaded onto Clipper to ride at any participating transit agencies.

The card can be reloaded to add value in the form of both passes/tickets and cash at select add value machines, retail locations and ticket offices. The Autoload feature can automatically reload the Clipper card whenever a pass expires or the cash balance falls below \$ 10.

Senior and youth Clipper cards are available for eligible individuals. These cards automatically calculate the discounted monthly pass fare or cash whenever Clipper is used. Registration is required in person at transit agency ticket offices.

Clipper is currently in use on AC Transit, BART, Caltrain, Golden Gate Transit and Ferry, Muni, SamTrans and VTA.
